

NO MONEY RAISED, THEY SAY.

POLICEMEN DENY THAT ANY CORRUPTION FUND HAS BEEN RAISED FOR USE AT ALBANY.

Superintendent BYRNE was asked yesterday about the talk that the police of this city had raised a corruption fund, to be used in defeating some of the Lexow bills at Albany. He declined to say anything at all concerning the subject.

Commissioner Kerwin was also silent in reference to the matter. He said that all he knew about it was what he had read in the newspapers. It was a serious matter, he said, involving criminal charges against officers of the department, but he had no knowledge that such a fund had been raised. It is to be hoped that commissioners may take some steps to cause an investigation to be made.

Several patrolmen were interviewed yesterday, and they all declared that they had no knowledge of any fund to be used in killing police bills, and also said that they had heard nothing of such a fund being raised.

FIREMEN SAY HE HAS NO RIGHT TO A PENSION.

An Assembly bill which has for its purpose the placing on the pension roll the name of George L. Crum, who in 1881 was the foreman of Engine Company No. 4, has aroused the opposition and condemnation of the officers and members of the Fire Department. Accordingly, the firemen have placed a protest before the members of the Legislature pointing out that, owing to changes from time to time in the Commission since the resignation of Crum, the Commissioners in whose hands lie the determination of the case have no knowledge of the facts, and are consequently not in a position to decide whether the claim is a just one or not. The petitioners then proceed to review "the facts of the case," and decide that at the time Crum left the service he was as sound of limb as when he entered it, and that the substantial cause of his leaving the service was his desire of accepting a position with a large corporation, at a greater salary and shorter hours than he was

then receiving," and they therefore urge that to admit Crum's claim to a pension would be a serious menace to the department's fund.

TO REVISE ITS HANDBOOK.

The Society for Instruction in First Aid to the Injured, United Charities Building, Fourth-ave, and Twenty-second-st., is desirous of having a revision made of its handbook, and is endeavoring to obtain the aid of relatives of deceased persons. Part of the plan is to send the new handbook to C. C. Cuyler, Treasurer, No. 41 Pine-st. The society thinks the new handbook will be an important auxiliary to its work.

SUCCESS WITH ANTITOXIN.

Charles S. Benedict, chief of the Bureau of Contagious Diseases of the Board of Health, received reports from sixteen of his eighteen inspectors yesterday morning which showed that of the diphtheria patients under observation, ninety-three have been treated with antitoxin. Dr. Benedict stated that the number represented one-fourth of the cases under observation. The experiments have met with marked success. The death rate for the last ten years has ranged almost twenty above the rate for the corresponding week.

NOTES FROM THE NAVY YARD.

Lieutenant-Commander Knox and his speedy little craft, the Conqueror, will probably go to sea again today and resume the work of destroying derelicts along the coast, which was interrupted last week by heavy weather. More coal and torpedoes have been sent to the yard, and it is expected that before the return there will be a reduction in the number of wrecks which now menace navigation. Captain Mahan, of the Chicago, received orders yesterday to take command of the Hudson River gunboat, the New-York, and prepare her for protection. It is required about a week, and then she will probably go to the Navy Yard and be put out of commission.
